

TRANCE DANCE

THE DANCE OF LIFE

WITH APURVA

Through Trance Dance we naturally alter our consciousness
and enter into what is defined
"non-ordinary reality" or what we call "the world
of the Spirit" - that world beyond time
and space, where anything is possible.

WHAT IS TRANCE DANCE?

Trance dance is a shamanic healing ritual,
which allows to release or transform blocks and wounds
that still limit us in everyday life.

Awakens repressed or blocked vital energy,
gives presence, strength and calm.

Dancing in a trance is one of the greatest joys
of life accessible to every human being.

When we dance, differences and layers
of identification disappear because dance, like music,
they are universal languages, innate in every human being.
This ancient ritual - made contemporary - uses dance
as a means of connecting with one's inner self
and the forces of nature and life.

The elements that allow you to reach a state
of ecstatic consciousness are: breath, free movement
and the sound. We will learn different breathing techniques
and other practices designed to give us clarity and inner space.

You will have the opportunity to learn how to offer
Trance Dance rituals

- What is a state of consciousness referred to as "Trance"?
- In the world of shamanism, what does it mean to "go into a trance"?
- How does it happen and why is it important?
- What happens to our brain and our consciousness / perception
- When we are in a trance or deep meditation?
- How can we explore different realities and become more aware
- of who are we really, beyond any possible superficial identification?
- Can this experience be used in creative ways
- to improve the quality of our life?

"Our shaman ancestors used the Trance Dance as a tool of transformation and to open oneself to inner ecstasy. By moving the body freely to the rhythm of the percussion and breathing you will slip into a state of ecstatic and absolutely natural consciousness, expanding your perceptions, dilating space and time. You will dance following different rhythms awakening ancient memories in you and you will unblock the vital flow through the release of tensions. A strong sense of unity will pervade you, bringing you back to the present time. We will make a journey through different cultures and sounds from all over the planet."

It is human nature to move, transform, be in a flow.

The repetition of daily actions - the routine - leads us to be blocked and to "sit" on our life energy. In a Trance Dance Ritual there are no methods or systems of how to dance but simply the freedom to let go, letting one's spontaneity and magic emerge. You explore and dance your own dance of present moment, coming un straight from the depths of your being. When you dance, a transformation of you and of your perception of reality happens.

Before starting the ritual you must make clear to yourself the reason why you do Trance Dance. What is your INTENTION. When you create a clear intention you create a purpose to your dance, which makes your inner journey simpler and connects it to everyday life, to your experience.

During the dance you free memories that were dormant over time, perceptions, postures: you awaken your instinct, your wild, natural, intuitive side.

You can reatively express your anger or aggression, your joy, your vulnerability, untie emotional knots that tighten your heart; emotions and anxiety they are freed to give space to silence and inner ecstasy.

We reconnect to our true face, the cycles of life and our vitality.
We awaken the ancient body language and its innate healing ability.

“Life is sacred: Life is art. Life is a sacred art.
Be a holy actor, who comes from one's soul and not from the ego.
The soul is beyond time and space and always available,
your potential is always available. It's up to us to celebrate
and express that potential. Each day activity is an
opportunity to express your authentic self. The soul is ours
artistic SELF, it is our ability to transform any dimension
of our life in art and theatre.” [G. Roth](#)
